We offer: Private Instruction and the Zeb Patten Golf Academy. These instructional tools fit nearly any budget. So what are you waiting for? Let's get started!!!

PRIVATE INSTRUCTION

The ultimate way to correctly learn the game of golf. Our highly trained PGA instructors will not only tell you your swing flaws-they will show you. Using the state of the art V1 video software, students will be able to see exactly what is causing that hook or slice. Your instructor will show you where in your swing you are having problems, and then show you the swing of other PGA and LPGA professionals, to allow you to have an accurate mental picture of what you should be doing. Once you and your instructor have had time to view your video and agree on the problem, the two of you will start work on that new improved swing. Each session last approximately 45 minutes.

After your lesson you will receive an email attachment of your lesson. Our instructors teach both days, nights, and on weekends too. Oh yeah, we forgot to mention that you will never have to worry about the weather when you take a lesson at the Golf Center. All private lessons are given in our 400 square foot teaching room. Sorry, no nets. You will hit out of this room onto the driving range through a huge specially designed opening. So what are you waiting on? Lower your scores by calling us today at 855-GOLF (4653) to schedule an appointment
